Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:
2. Methods of causing weight loss
3. A. Calculating electrolyte balances
4. B. Providing diverting, adjustable pathway in a bypass or natural portion.
5. C. Connecting a bypass to divert only a portion of food to a second intestinal region.
6. The species are independent or distinct because of the different steps.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 3738

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

7. During a telephone conversation with Jim Shay on 4-2-06 a provisional election was made without traverse to prosecute the invention of species B, claims 34-50,54.

Affirmation of this election must be made by applicant in replying to this Office action.

Claims 31,32,55-59 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to a non-elected invention.

DETAILED ACTION

Claim Rejections - 35 USC § 112

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 42-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification lacks description of any particular length of small intestine to be bypassed (42,43) and where the pylorus is in relation to the device (44,45).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 34-41,43-47,49,50,54 are rejected under 35 U.S.C. 102(e) as being anticipated by Stack et al. US PUB 2005/0004681.

Stack et al. discloses in figures 2-5 and 20 and paragraphs 49,55,60,74-77 a method of weight loss treatment comprising performing a partial intestinal bypass with an adjustable implant (expandable stent opening) having a one way valve. The portions of the stent comprise rings, and the device may be delivered and adjusted endoscopically.

3. Claims 34-40,46-50 are rejected under 35 U.S.C. 102(e) as being anticipated by Bessler US PUB 2004/0039452.

Bessler discloses in figures 1-4 and paragraphs 12,13,18-25 a method of weight loss treatment comprising implanting a partial intestinal bypass having an adjustable opening, valves, and inward projections to provide one way flow.
